

As Amneal moves toward 2.0 I think it's really important for us to take the good things and keep them and build upon them in order to be as successful as we can be.

One of the ways that I'm hoping to help our team embrace the growth mindset of Amneal 2.0 is to really lead by example and hopefully motivate and educate where I can.

It really shows what an investment Amneal is making into its' people that we are learning and spending so much time on this leadership program.

This is just as important as anything else to making sure that we are developing strong teams and strong leaders within our organization.
